Year of the Rooster

Happy New Year! It's 2017 and that means my son Miles will be 12 this year!!! He was born the Year of the Rooster in June of 2005, and since the zodiac calendar has 12 animal signs, it's cycled one time since Miles came into this world! Holy moly... I feel like he's already leaving for college! Good Grief! If you were born the Year of the Rooster, you are said to have these characteristics... hard working, strong-willed and confident. Well organized and good time keepers. Enjoy being the center of attention and love flattery. Often outspoken and hate criticism of themselves though they can be inclined to find fault with other people. Well... now you know my son. Hahahaha. It's also a good luck year if you were born the year of this zodiac sign, so make the most of your special year, try a paper crafting class and challenge yourself even if it's not your lucky year, all of us at the Paper Garden will make your visit a fortunate one!

Please welcome back Julie Ebersole from Seattle, Washington, she will make her bi-annual comeback in March and we are delighted to have her teach classes again! Also, look for the fun "single color" card classes.

Think Pink! \$35

Let's put some pink into your life. Pink is the color of universal love. It's a quiet color, and a combination of red and white. The color pink provides feeling of caring, tenderness, self-worth and love, acceptance. We will have different tones of pink in our class because pink combines energy when you add deep pink, magenta and fuchsia... so fun!

Turquoise \$35

This is one of my sister Allison's favorite colors. Why? Well, it's the color of the iconic Tiffany box! Turquoise is the blend of the color blue and green and has the same cool and calming attributes. It means refreshing, sophisticated, serenity, good luck and joy. No wonder when you get a box from Tiffany we all feel these exact same attributes!!!
