## A New Year's Resolution

January always seems to be the time when I mentally think of my new years resolutions. If I wrote them all down it would be a novel. So I don't do that anymore! Whether it be saving money for something, being a better person, dieting, exercising, cleaning the house, organizing... my list goes on and on. It's always one of my goals but it never gets done! This year, I am having weekend classes earlier from 4–6 p.m., so I can spend more time with my

family. I think my family will love it! I hope you can still make it with the time change. One thing I would like to see on *your* resolution list... to do something creative and my job would be to inspire you. We have so many classes and so many free make and takes, you would be surprised how a little crafting can mentally cure a stressful day from work or home. Let us show you how easy it is to make something. We are always willing and able to help you come up with a party invite or something simple, like putting a cute tag on a present or candy. We love it! Challenge us to help you and keep The Paper Garden in your mind for your new years resolution—the top of the list—to be creative this 2011! Cheers!
